

Reggie's Social Story

I like to work with my friends. It is fun.

When my friends share ideas, I can say kind things to encourage them. I can be a good friend.

Here are some nice things I can say to my friends when they share their ideas.

- That's a good idea. Thank you for telling me about it.
- What a great idea!
- I like hearing your ideas!

I do not need to disagree with my friends, but if I have a different idea to share, I can tell my friends about my idea in a friendly way.

- I like your idea. I have a different idea to share.

Here is a picture of my friend and me. She is happy because I was being a good friend.
